

## **MOST™ FOEB 1** **Plastic Optical Fibre End Preparation Module**

### **Features:**

- High quality end preparation of plastic Fibre Optic cables.
- Minimises increases in insertion loss
- Modifications of processing parameters via PC
- Display of status and service messages.

### **Compatible Tyco Electronics Products**

MOST™ Plastic Fibre Optic Cables

The FOEB 1 facilitates the high quality end preparation of plastic Fibre Optic cables. Two cable ends are prepared in the same machine cycle.

The quality of the finish of the prepared ends assures the smallest increase in insertion losses.

The processing parameters can easily be changed by means of a PC

The FOEB 1 module is a complete, self-contained workstation.

It can be utilised as a manual bench station as well as integrated into fully automatic systems.
