

For Field Service Conditions

Features

- Robust terminating process, even a under field service conditions
- Accurate positioning of the clips on to the terminal pins
- Adjustable clip-feed
- Various stripping inserts available
- Ejector slot resp. integrated box for insulation slugs
- For each size of terminal pins three different versions of the tool are available

Compatible

Tyco Electronics Products

AMP TERMI-POINT Clips

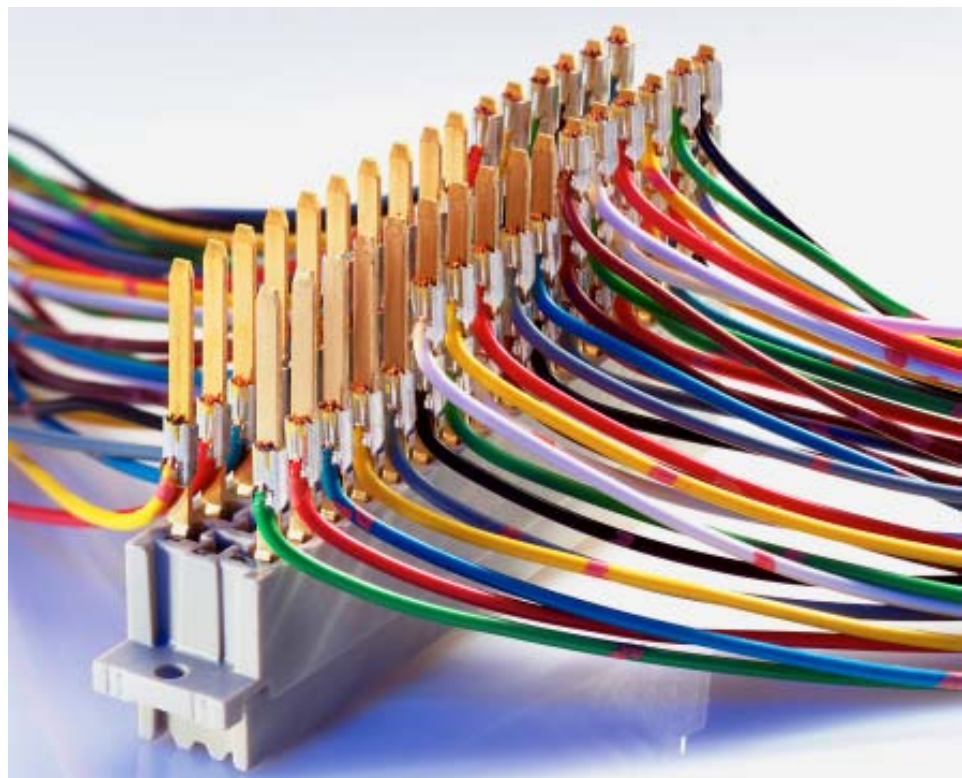

TERMI-POINT tools are particularly suitable for field service conditions.

7-stranded wires and solid wires can be stripped and electrical connections to terminal pins can be produced using AMP TERMI-POINT Clips.

Different versions of TERMI-POINT tools can process a multitude of wires and insulation diameters.

Pre-requisite for producing high quality electrical connections is the right combination of insulation diameter, stripping insert and TERMI-POINT clips.

The shown service tool is available for repair of crimp connections.

Maxi TERMI-POINT		
	Pneumatic Tool	PN 0-0871087-1
	Hand Tool	PN 0-0654182-1
	Service Tool	PN 0-0655032-1
Standard TERMI-POINT		
	Pneumatic Tool	PN 0-0871087-2
	Hand Tool	PN 0-0069526-2
	Service Tool	PN 0-0655136-X
Mini TERMI-POINT		
	Pneumatic Tool	PN 0-0059865-1
	Hand Tool	PN 0-0069535-0
	Service Tool	PN 0-0725831-0
