

# SDE Electric Terminator

## Fast Facts

*This convenient, powerful terminator is a dependable asset for small-scale bench production or wire harness assembly.*

- Compatible with over 100 SDE dies
- Terminates wires to 10 AWG [6 mm<sup>2</sup>]
- Small footprint—390 x 260 x 200 mm [15.5 x 10 x 8 in]; lightweight—13 kg [29 lb]
- Foot actuated, with jog cycle
- Crimp jaws normally closed
- Power requirement: 110/120V or 220/240V; 0.7 KVA
- Engineered and manufactured using processes independently certified to internationally recognized quality standards ISO-9001:2000 and Telecommunications Industry Standard TL 9000.

## SDE Electric Terminator, Part No. 1490076-2

### *Benchtop Power Crimping*

The SDE Electric Terminator offers excellent price to performance ratio in a compact benchtop unit with the features normally found on more expensive models. It is ideally suited for low to medium volume bench production and harness assembly. As part of the SDE family, it is compatible with a broad range of crimp dies that are fully interchangeable among tools and tool platforms.

**Versatile.** As an SDE tool, the system accommodates dozens of interchangeable dies in an ever expanding range, including those for open-barrel contacts and terminals. Many die sets have multiple cavities for crimping more than one wire or terminal size. The tool can terminate wires up to and including 10 AWG [6mm<sup>2</sup>].

**Convenient.** A completely logical, simple arrangement of control switches and connections provides easy setup and requires only minimal operator training. Operator safety is enhanced by a safety reverse switch and safety lock foot pedal.

In addition, crimp jaws are normally closed. The sprung shut jaws grip the terminal prior to wire insertion, to ensure precise positioning. A cycle counter tracks operation, for maintenance planning.

**Quality.** Every SDE Terminator crimps with precision, incorporating the traditional quality of all AMP products.

### **Replacement Parts.**
